# TRAVEL TO A PLACE BEYOND TIME

On top of a mountain by the water's edge is a place of timeless beauty. A place where life's worries are left behind and where days are marked not by calendars but by sunrises, sunsets and the ebb and flow of the sea.

## WE BUILD THE FUTURE

El-Shahawi Group had its beginnings in 1976 with the development of residential buildings across Cairo.

These activities resulted in the formation of the real estate development company known as Galalah and the company's success in En El-Sakhna began with the groundbreaking development of En El-Resort in 1992. This was followed in 1998 by the development of En Bay.

The same year, the company expanded its activities to cover cement production forming the Arabian Cement Company. Further real estate activities commenced in 2005, when the company initiated the Palm Islands project in Na'ama Bay in Sharm El Sheikh. 2005 saw massive expansion into new business sectors, which prompted the formation of El-Shahawi properties, which includes five subsidiaries: the Arabian Cement Company, which oversees cement production; Ready Rocks, which oversees aggregates production; Palmix Concrete, which handles ready mix concrete production; El-Shahawi for engineering and contracting; and El-Shahawi for real estate development.
